

Technical Specification Sheet

Woods Low Marking Vacuum Pads IWGGR134

Reduce the chances of leaving marks or residue on glass with these specialist 305mm diameter rubber low marking pads.

These abrasion resistant pads can be easily fitted to any of our Woods vacuum lifters and the natural rubber compound ensures that glass and light coloured stone loads are left mark-free.

GGR also stock a selection of low marking hand cups and low marking suction pads for our Hydraulica, DSZ2 and Kombi vacuum lifter ranges.

Features

- 305mm diameter
- Sold individually
